DETAILED ACTION

Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-33, and 38-39, are drawn to "pharmaceutical container", classified in class 604, subclass 19.
 - II. Claims 34-37, are drawn to "Luer lock", classified in class 70, subclass 315.
 - III. Claims 40-53, are drawn to "Rubidium generator", classified in class 250, subclass 507.1.
- 2. Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions have acquired a separate status in the art due to their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
